

Phoenix 0990 Series Cashier Deposit

Front or Top Loading Cashier Deposit for 24 hour cash management.

- Multiple high security locking options available, including double bitting keylock, digital electronic or time delay.
- Solid Steel door fitted with Anti Explosive Device.
- Upper and Lower Security Sections for Coin Handling and Storage.
- All Cashier Deposit Safes are ready prepared for floor fixing.

Phoenix 0990 Series Cashier Deposit

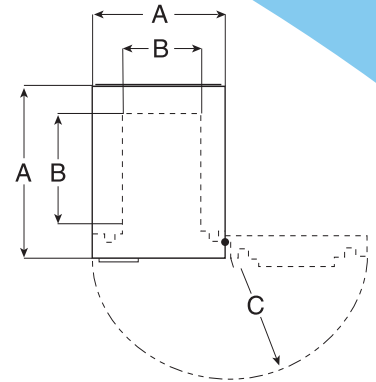

These four Phoenix Depository safes are designed to protect the collection of money, where immediate deposit is required without unlocking the safe or requiring a cashier to hold keys.

The front loading models 0991 and 0992 are fitted with a special Phoenix tilting baffle plate to ensure that the contents can not be 'fished out'.

The top loading rotary models 0994 and 0995 have a rotating drum which completely seals the safe after the goods or cash have been deposited.

The body is constructed from 6mm steel plate and a door of 12mm solid steel is reinforced with hardened anti drill plates over the locking area. An anti explosive device is fitted for extra protection over vital areas for increased protection and security.

These safes have a large capacity drop area which can accommodate money bags, envelopes, packages and deposit capsules. Separate security compartments with independent locking systems are available to facilitate the storage of coins, notes, credit receipts or transaction documentation.

● **Dimensions stated as:**

- A External height x width x depth
- B Internal height x width x depth
- C Door swing
- D Weight
- E Capacity
- F No of shelves, No of drawers, No of doors

● **Front Loading Cashier Deposit 0991**
