NEW The Laptop Desk Locker – a secure storage solution for a single laptop in any office environment

The Laptop Desk Locker forms an ideal security solution for the storage of a single laptop computer over night. Designed to be bolted to the frame of our security desks or below the worktop of conventional desks the unit features an easy to operate push button lock. For larger offices the lock can be supplied as suited or alternatively with a master key for an additional cost. The hinged door allows easy access and a cut out on the rear allows the laptop to be recharged whilst safely stored. Avoid the loss of your laptop with this easy to install security locker.

TOP-TEC T-T 100L LAPTOP DESK LOCKER
