Temperature Detection

The Temperature Sensor will transmit temperature signals regularly according to setting. The factory default interval is 10min

- The Smoke Detector will also send temperature signal when temperature changes by +/- 2°C.
- You can also press the Test Button once to transmit a temperature signal manually.
- The temperature detection range is about -10°C ~ 50°C. (14°F ~ 122°F)

Installation

8

All devices in the kit are pre-linked to the Smart Hub. If you want to add more devices, you can do this by using the “Add device” section in the Smart Living Home app.

①

Go to the app menu and select Add Device, then activate learning mode.

②

Press the learn button on the device you want to add, the Smart Hub will beep when the device is added. You will then see the new device on your app screen.

~ 200 m

③

Exit Learning mode after you have added all the additional devices.

You can change the device behaviour settings to select the required action when the system is fully armed or part armed.

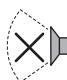

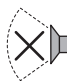

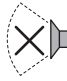

Go to the App menu

Settings > Alarm settings > Devices

In your device list, go into the settings for each device and select the required device mode.

i 4 different settings are available for PIR Motion Detectors and Door/Window Contacts. Devices are pre-set to Entry. When the system is armed first users will have 30 seconds to exit the building. If the system is already armed, triggering any sensors will cause an entry countdown to begin.

 Part armed mode is usually used to protect the perimeter or a specific zone of the house (eg. ground floor) while you are free to be inside or in another part of the house (eg. upstairs)

Changing your Key Pad PIN

You can modify the existing PIN code using the app. You can set up to 10 sets of 4 digit PIN numbers in the app.

Go to app menu

Settings > Alarm Settings > Key Pad PIN code settings

Adding new users

To add more users to control your alarm system you can add a new account in the app.

Go to app menu

Settings > User Settings > Account Management

Managing Alert Notification

You can manage the different type of notifications, choose to have all events or burglar only reported via email. You can also add phone numbers to receive an SMS notification when burglar event is reported.

Go to app menu

Settings > User Settings > Notification settings
Settings

i If you want to know more about your Home App features, check our app manual sections within the app. (select the ? at top right of the screen you need help with)

Changing batteries

i The smart hub will start to emit an intermittent beep to indicate that the batteries need changing on one of your devices. The hub will continue to beep until the batteries on this device have been replaced.

The App will display a low battery message under the relevant device when batteries are running low.

Please make sure the system is disarmed before changing devices batteries.
